ACCESSORIES FOR ELEVATORS

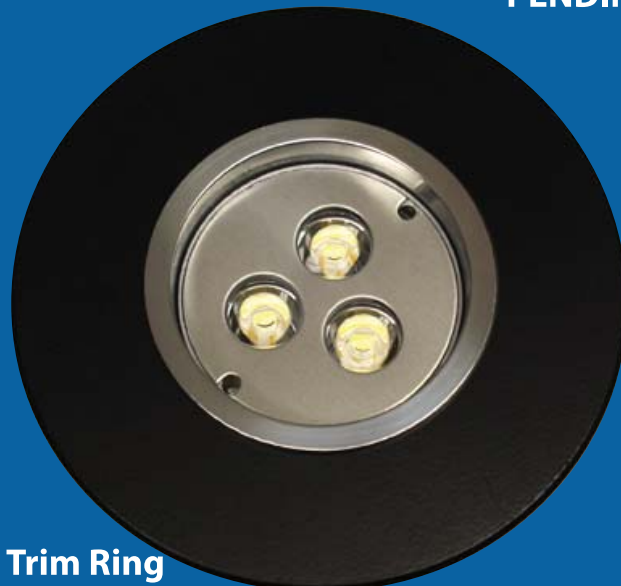

## ACCESSORIES

PATENTS  
PENDING

### TR-L Trim Ring

Shown w/optional polished SoloBeam fixture.

### TR-L Trim Ring

Shown w/optional polished Trifecta fixture.

## TR-L ADAPTOR ASSEMBLY

**ADAPTS MAN-D-TEC TRIFECTA®, SOLOBEAM®, OR H-DL™ HALOGEN TO LARGER HOLE CEILINGS.**

Specify part **#TR-L** when ordering with the Trifecta, SoloBeam, or H-DL Halogen systems (ie: "Trifecta-6 w/TR-L trim rings"). Standard color is black with various colors available at extra cost.

Converts our Linelite® ceiling lighting or other 120V lighting fixtures to our Trifecta, SoloBeam, or H-DL Halogen lighting, using the same 2 3/4" hole cutout and ceiling.

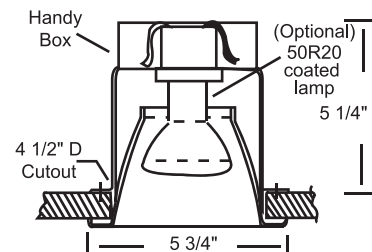

Uses our standard 3" diameter fixtures along with a special trim to allow mounting in the 4 1/2" cutout for the Linelite.

Works with any existing cutout, up to 5" diameter!

Less heat generated and longer bulb life compared to incandescent Linelite.

### Before

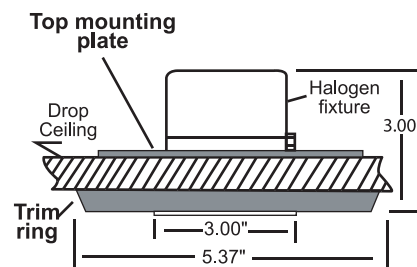

#### Linelite 120V fixture

Example of 120V lighting that can be converted to our Trifecta, SoloBeam, or H-DL Halogen.

### After

#### TR-L adaptor assembly
