**SURFACE-MOUNT CONTEMPORARY LED LINEAR LIGHTING FOR ELEVATORS DESIGNED TO NEMA 4, NEMA 4X, & NEMA 12 SPECIFICATIONS.**

Neutral white LED lighting system designed to **NEMA 4, NEMA 4X, & NEMA 12** specifications. Use this lighting system for elevators with hose-directed water or industrial applications.

Contains the following features:

Design allows for primary LED lighting to be provided in nearly any elevator.

Efficient LED provides significantly increased light output, while enclosure provides for a wide beam angle for superior lighting.

*Purchase this unit by itself, or purchase as part of our **"NEMA APPLICATION ELEVATOR PACKAGE"** along with the **ELS®-200-N4™** emergency lighting system and the **MVS®-HAZLOC™** ventilation system.*
