CONTEMPORARY PERIMETER LED LINEAR LIGHTING FOR ELEVATORS.

LED linear lighting available in warm white or neutral white. Neutral white version provides 251 lumens per linear foot. Various mounting options (shown above). Lights can be used as a direct source of light into the cab or as accents with another primary lighting system. **Available in 0.25 inch increments** (up to 8 feet in length) and a wide beam angle for superior lighting on cab walls. Mil-Spec aluminum extrusion. Available in mill finish or black anodized finish.

***Available with 3,000K or 4,000K color temp**
